Welcome to Peace of Mind Property Management!

In an effort to make sure you receive the highest level of service we can provide as your property management company, we utilize many forms of communication with you as the client. This includes phone calls, emails, video and text messaging. The TCPA (Telephone Consumer Protection Act) requires us to gather written authorization to utilize some of these forms, more specifically text messaging.

By signing this, it will serve as our agreement to allow us to text you as a part of our customer service process. We promise we won't spam you and you are always free to opt out at anytime.

We look forward to working with you!
